Team Updates ✨

Introducing Dr Jan

We're delighted to introduce Dr. Jan, the newest member of our dental family!

Graduating from King's College London in 2003, Dr. Jan brings over 20 years of experience in general and restorative dentistry. With a gentle, patient-focused approach and a passion for minimally invasive dentistry, Dr. Jan is dedicated to preserving natural smiles and helping even the most nervous patients feel at ease.

Outside the clinic, she enjoys life with her two young boys and finds relaxation in her garden whenever she can. 🌿

Please join us in giving Dr. Jan a warm and heartfelt welcome! 💙

Welcome Back Dr Tan

We're delighted to share that Dr Tan is recovering well following his recent treatment and will be returning to practice on Friday 17th October.

Going forward, Dr Tan will be available on Fridays only.

Welcome

We're excited to welcome you to the latest edition of our newsletter, where we share important updates, news from our practice, and a few enhancements we've made to better serve you.

From showcasing the services we provide to highlighting special offers and helpful insights, our goal is to keep you informed, inspired, and connected.

We truly appreciate your continued trust and support, and we're grateful to have you as part of our community.

✨ Introducing The Next Generation of Dental Cleaning ✨

At our practice, we are committed to providing the best possible care by using the latest in technology. One key piece of equipment that sets us apart is the state-of-the-art EMS Machine which is the gold standard in preventative care! 🦷 ✨

Welcome to a new era of dental hygiene with Airflow® Guided Biofilm Therapy (GBT) — a fresh, innovative approach that redefines your hygiene experience.

Discover a cleaner, brighter, and healthier smile with this modern, pain-free alternative to the traditional scale and polish. Airflow® GBT uses advanced technology to gently remove stains, plaque, and bacteria from even the most hard-to-reach areas of your mouth — all in a single visit.

By combining a warm stream of water, gentle air, and a fine powder, Airflow® GBT effectively eliminates plaque, stains, and biofilm without the need for scraping or discomfort. It's high-tech, comfortable, and remarkably effective — now recognised as the gold standard in dental hygiene care.

You'll leave your appointment feeling fresher, cleaner, and noticeably brighter — like your mouth just enjoyed its very own spa treatment.

Why Choose Airflow® GBT?

A gentler, smarter way to care for your smile.

- Comfortable and pain-free — no scraping, no stress.
- Kind to your teeth and gums — no drills, no trauma.
- Clinically proven to remove up to 100% of harmful bacteria.
- Helps prevent tooth decay, gum disease, and infections.
- Supports your overall health, because a healthy mouth means a healthier body.
- Fast, effective, and long-lasting results — feel the difference straight away
